

ES AEOC 19000018II

MARTICO VALENCIA, S.L. has achieved the AUTHORISED ECONOMIC OPERATOR (AEO) certification with number ES AEOC 19000018II, valid from March 25th 2019.

The AEO concept is based on the Customs-to-Business partnership introduced by the World Customs Organisation (WCO).

The EU established its AEO concept based on the internationally recognised standards, creating a legal basis for it in 2008 through the 'security amendments' to the "Community Customs Code" (CCC) and its implementing provisions.

The programme, which aims to enhance international supply chain security and to facilitate legitimate trade, is open to all supply chain actors. Our certificate covers economic operators authorized for customs simplification (AEOC).

The AEO status granted by one Member State is recognized by the customs authorities in all EU Member States.

An Authorised Economic Operator can be defined as a reliable operator for all customs operations, therefore it can have some advantages through all Europe.

Below is the list of mutual recognition agreements/arrangements with other countries which are not EU Member States:

- China
- Japan
- Norway
- Switzerland
- USA

ES AEOC 19000018II

We are proud to have achieved this certification, which confirm our reliability within the supply chain and to the customs authorities around the world.
